NEW PRODUCT COLLECTION

Zhongshan White Bird Electronic Ltd.

About us Company Profile

Zhongshan White Bird Electronic Ltd. is a leading corporation in China which is specialized in all kinds of household scales and industrial scales R&D, production and sales. Our products include electronic bathroom scales, body analyzers, kitchen scales, platform scales, weighing instruments, floor scales, pallet truck scales, weighing scales, check weighing scales and so on.

We attach great importance to independent research and development and technological innovation. We have high-tech weighing R&D, management and production teams, relying on the technology accumulation and market experience. We create a perfect production system and quality system by scientific and strict management. Not only providing artistic, convenient, practical and stable products for our customers through different trades, but also focusing on providing customers with the best cost-effective professional equipment solutions. We are selling to domestic, Europe, America and other Asian countries, and have won the approval and praise of the customers.

We will always implement the “customer first” principle of service, adhere to the “innovation, excellence” of the enterprise, constantly deliver high-quality, high-grade electronic weighing instruments to meet customers’ actual and potential demands. With the quality to interpret accurate weighing, with accuracy to sustain development, we would like to cooperate with domestic and foreign
